

Large US Retailer, Crisis Support

A Cincinnati based retailer required temporary refrigeration to provide additional capacity for their curbside and online ordering programs.

Running increased retail pick-up services in an effort to maintain safety for both employees and valued customers alike during the ongoing COVID-19 crisis.

Lowe supplied 6-8 locations in their Nashville division over a 2 month period, providing multiple 2 door commercial refrigerators to hold totes for online ordering. These units were setup and placed in both exterior and interior settings by the Lowe team.
